Finding a Replacement Course

The Find a Replacement Course feature in Transferology allows you to search for courses that are equivalent to a required course in your major at the University of Minnesota - Twin Cities.

For example, if you need to complete MATH 1031 for your major but want to take it at a different institution, you can use the “Find a Replacement Course” feature to find an equivalent course at another college or university that will fulfill the requirement.

Step 1: Using the Find a Replacement Course feature

1. Log into transferology.com. You will need to create a free account if this is your first time using Transferology.

2. Select Find a Replacement Course from the top toolbar.

Step 2: Entering your course and course information

1. Enter in University of Minnesota - Twin Cities under School You Currently Attend.

2. Enter in the course subject that the course belongs to under Courses.

3. Enter the Department (i.e. to find MATH 1031, enter in MATH).

4. Add the course you are searching for by clicking on the + symbol. You may search for multiple course matches at a time.
Step 3: Searching for Matches

1. Click on the blue Search for Matches button that is on top of the Courses section.

2. Transferology will populate a list of schools that have an identified equivalency for the course(s) you are searching for.

You can filter your results by typing in the name of the specific school you are looking for, or by using the filter options on the right hand side.

Step 4: Viewing Course Matches

1. To see the equivalent course to the course you are searching for, click on the blue Match button next to the name of the school.

2. This will then identify the course you should take to meet the University of Minnesota - Twin Cities requirement you are searching for.
Finding a course that fulfills your Liberal Education Requirements

You can use Transferology to find a course that meets specific Liberal Education requirements at the University of Minnesota Twin-Cities campus. Use the Find a Replacement Course feature in Transferology and make the following adjustments.

Step 1: Choosing course requirements

1. Select the Requirement Categories tab next to Courses tab.

2. Click the + symbol next to the Requirement Category you wish to search for (you may select more than one).

Step 2: Searching for Matches

1. Click on the blue Search for Matches button that is on top of the Courses section.

2. Transferology will populate a list of schools that have an identified equivalency for the course(s) you are searching for.

You can filter your results by typing in the name of the specific school you are looking for, or by using the filter options on the right hand side.
Step 3: Viewing courses that meet a requirement

1. Click on the blue Match button next to the name of the school.

2. Click on the name of the requirement category, and use the drop-down feature to select the course subject. The courses that meet the requirement will be listed.

Step 4: Check-in with your academic advisor

Always confirm with your academic advisor that the course you have found will meet your program and degree requirements. If a course or requirement category does not have a match at the institution you wish to attend, connect with your academic advisor to discuss your options.

Note: Transferology only lists courses that have been evaluated for direct transfer equivalency. If a target institution or course does not show up in the results list, it may mean that course has not been evaluated for equivalency to the University of Minnesota - Twin Cities within the past five years. If you can access a course syllabus or detailed course outline, submit the course for evaluation at z.umn.edu/CourseEvaluation.
